Missing 411 Eastern United States:

Missing Four One One David Paulides, 2011 www.canammissing.com People have been disappearing under mysterious circumstances for centuries. During the last 150 years the media has covered many of these cases and has attempted to put a rational spin on a very unusual event. After 3 years and 7000 hours of intensive research there is a new paradigm being presented on people missing in the wilds of North America. Missing 411 identifies 28 clusters of missing people who have vanished in remote areas of the continent. The finding is a troubling fact questioning why and how these people have disappeared. Some of the victims are found and tell a very interesting and mind bending story of their experience; others are never found, a fact that confounds searchers and law enforcement. There are many children that have disappeared under highly unusual circumstances. After weeks of searching and failing to find any evidence of the child being in a remote location, many parents and law enforcement draw the conclusion that the victim was kidnapped, yes taken by someone lurking in remote areas of our national parks, forests, farms, and even ranches. There are two editions of this research: Missing 411 Eastern United States and Missing 411 Western United States. The eastern United States copy has a list of every person who is listed in each book as well as a final conclusion to the investigation. You will be shocked by the lack of interest and documentation that many of our governmental bodies have committed to missing people. After reading these books you will never look at our wildlands the same.

Major news organizations do a deplorable job of covering major stories and issues which are deemed too unusual or too far outside the box. Chances are they will find a way to trivialize or ignore the disturbing evidence accumulated by David Paulides, a former law man turned investigative journalist. The paper trail uncovered by Paulides through sheer doggedness is impressive; the evidence indisputable. People are vanishing without a trace from our national parks and forests yet government agencies are saying nothing. At a minimum, this story deserves space on the front page of every newspaper in the country and it warrants a formal high level inquiry by the federal agencies whose files leave little doubt that something very strange is unfolding in our wilderness.
