Strategy, Policy, & Review Department,2024-01-30 This note aims to provide guidance on the key principles and considerations underlying the design of Fund supported programs. The note expands on the previous operational guidance notes on conditionality published over 2003-2014 incorporating lessons from the 2018-19 Review of Conditionality and other recent key policy developments including the recommendation of the Management's Implementation Plan in response to Independent Evaluation Office (IEO)'s report on growth and adjustment in IMF supported programs. The note in particular highlights operational advice to: i) improve the realism of macroeconomic forecast in programs and fostering a more systematic analysis of contingency plans and risks; ii) improve the focus, depth, implementation and tailoring of structural conditions (SCs) with due consideration of growth effects; and iii) help strengthen the ownership of country authorities. Designed as a comprehensive reference and primer on program design and conditionality in an accessible and transparent manner, the note refers in summary to a broad range of economic and policy considerations over the lifecycle of Fund supported programs. As with all guidance notes, the relevant IMF Executive Board Decisions remain the primary legal authority on matters covered in this note. **Insurance Handbook for the Medical Office**
