**Chinese Philosophy - Simple Guides** Peter Nancarrow, 2009-08-01 THIS BOOK WILL HELP YOU to appreciate the variety subtlety and wisdom of a unique philosophical tradition to understand the major schools of thought that have shaped Chinese civilization to draw on a rich cultural resource for different perspectives on questions of our time to recognize traditional concepts that continue to inform Chinese thinking today China an emerging superpower is heir to an ancient civilization that owes little to outside influences

This compelling introduction to Chinese philosophy describes the major traditional schools of thought that continue to underpin much of Chinese thinking today. It includes an outline of the country's early history and traces the development of Chinese thought which evolved in a continuum and generally in isolation from the rest of the world from the earliest concerns with ritual and divination until the arrival of Buddhism in the first century. The best known strand of Chinese philosophy is Confucianism which is basically a philosophy of relationships between different levels in a hierarchy from the ruler down to the individual. In complete contrast the almost contemporary school of Laozi espoused the wisdom and freedom of the Dao based on the concept of alignment with nature and reverence for the environment. There followed schools of analytical logic, Legalism and the arrival of Buddhism which became associated in China with the mystical writings of Laozi adding the dimension of compassion. These schools gradually fused in a neo Confucian synthesis that went unchallenged in China until the encounter with the West. The book touches on the relationship between philosophical thought and politics and brings the reader up to date by looking at the considered way in which China has adapted foreign ideas in modern times. Written by a distinguished author in clear everyday language it is a fascinating and accessible introduction to an important subject.

Pete Truman, 2023-06-06

The whole concept of dating and relationship in China and most Asian countries is full of drama. The local culture, language, food, customs and expectations are often far different from what we'd generally experience in the West. Make no mistake for a typical Joe, it'd often turn out to be a Herculean task to ever date a charming Chinese woman he has been dreaming for long. In most cases either he'd be a single dude reading books and blogs to figure out what's up in the mainland or he'd be married. LTRed to a woman past her peak. Surprisingly the women here are rather manipulative. They'd ensure you oblige to their numerous informal terms and conditions you'll need to agree to those conditions even before holding her delicate hands. However it all needn't be so complicated. Finding a suitable Chinese woman is all about understanding her mindset in order to seal the deal. I am Pete. I have lived in China for years and been with a good number of women. I have been through a lot and seen a lot throughout my memorable China years. Although the dating culture in China is full of social dynamics, finding a real gem in China is indeed

possible In this book I d share with you some of my tried and tested secrets to truly find the love of your life in China and elsewhere
