Ross Gilbert Arthur,1987 The formal theory of signs taught in fourteenth century schools and its analytic techniques were familiar to all educated Englishmen of the period whether directly from the standard texts or indirectly through their manifestations in sermons popularizing poetry and discussions of heraldic practice In this book Ross Arthur seeks to understand Sir Gawain and the Green Knight in terms of the poet s creative use of that theory *Theory of the Object*
Thomas Nail,2021-08-20 e Throughout the history of science and technology objects have been understood in many ways but rarely have they been understood to play an active role in the production of knowledge This has led to largely anthropocentric theories and histories of science which treat nature as passive objects viewed by independent observers Thomas Nail approaches the theory of objects historically in order to tell a completely new story in which objects themselves are the true agents of scientific knowledge They are processes not things It is the first history of science and technology from prehistory to the present to illuminate the agency knowledge and mobility of objects e e Nail s view of the object can be characterized as e change is the only constante to quote those who have gone before Nail Univ of Denver sets out to convince readers that reality is not a stable essentialist subject object dichotomy but rather a materialist process of kinetic historical progression That said Nail s writing style is generally approachable so even readers not drawn to academic philosophy of science might find this an interesting read e Optical Microscopic and Spectroscopic Techniques Targeting Biological Applications Vicente Micó,Giancarlo Pedrini,Ming Lei,Chao Zuo,Peng Gao,2021-10-22 **New Views of Space, Matter and Time** James Delmage Ross,1931 The Open court ,1895 **The Open Court** Paul Carus,1895 Records of the Geological Survey of India Geological Survey of India,1982 1867 includes the Annual report of the Geological survey of India
