How to Prepare for the AP Environmental Science Exam Bobrow Test Preparation Services, 2002. This brand new Advanced Placement manual is the only book currently on the market that specifically prepares students for the AP Environmental Science Exam. It reviews all important environmental science concepts and problems including the flow of energy, its sources and conversions, the cycling of matter, geology and earth dynamics, the atmosphere, weather and climate, the biosphere, human history and global distribution, the earth's renewable and nonrenewable resources, measuring environmental quality, global changes and environmental laws, ethics and issues. The book's added features include an overview of the test format and test taking strategies. Two full length practice tests are presented with questions answered and explained.

AP Environmental Science Crash Course Gayle Evans, 2011-10-01. REA's AP Environmental Science Crash Course is the first book of its kind for the last minute studier or any AP student who wants a quick refresher on the course. Written by an AP Environmental Science teacher, the targeted review chapters prepare students for the test by only focusing on the important topics tested on the AP Environmental Science exam. The easy to read review chapters in outline format cover everything AP students need to know for the exam: human population dynamics, managing public lands, energy conservation, changes in Earth's climate, species extinction, loss of biodiversity and more. The author also includes must know key terms all AP students should know before test day. With our Crash Course students can study the subject faster, learn the crucial material and boost their AP score all in less time. The author provides key strategies for answering the multiple choice questions so students can build their point scores and get a 5.
