*From the City as a Project to the City Project* Fernando Carrión Mena,Emilia Silva Arias,2025-11-15 The city is a forward looking project rooted in existing challenges and dynamics This tension has been especially apparent in the 21st century when city projects have been contending with great changes in different areas of society globalization technology third and fourth industrial revolutions economy neoliberalism state reform among others For this reason city projects must increasingly employ a plural vision This second volume on the topic of the city as a project draws on a framework informed by historical examples presented in volume one to provide an overview of major theoretical

and methodological advances in project formulation in the 21st century Presenting classifications and analysis of contemporary cities and approaches the contributions in this book illustrate diverse visions of the city These perspectives collectively contribute to an understanding of the conditions that generate new inequalities and integrations in ongoing and imminent city projects and thus evaluate the cities we seek to build **Energy Law in Brazil** Yanko Marcius de Alencar Xavier,2015-03-05 This book describes the energy law situation in Brazil It focuses on three specific energy sectors oil natural gas and biofuel The decision to concentrate on these areas takes into account the role that these energy sectors play in the economic political and legal systems in Brazil as well as the fact that they are the primary subjects of current discussions surrounding economic regulation in the country The book composed of thematic chapters authored by specialized legal researchers analyzes the different aspects of the oil gas and biofuels industry starting with an introduction and technical points and followed by a discussion of the legal issues It also considers the different legal areas used to examine the aforementioned energy sectors such as regulatory law environmental law tax law international law among others The book will serve as a valuable guide for researchers interested in understanding Brazilian energy law and at the same time presents the state of the art of studies carried out in Brazil **Seafloor Geomorphology as Benthic Habitat** Peter

Harris,Elaine Baker,2019-11-05 Seafloor Geomorphology as Benthic Habitat GeoHab Atlas of Seafloor Geomorphic Features and Benthic Habitats Second Edition provides an updated synthesis of seabed geomorphology and benthic habitats This new edition includes new case studies from all geographic areas and habitats that were not included in the previous edition including the Arctic Asia Africa and South America Using multibeam sonar the benthic ecology of submarine features such as fjords sand banks coral reefs seamounts canyons mud volcanoes and spreading ridges is revealed in unprecedented detail This timely release offers new understanding for researchers in Marine Biodiversity environmental managers ecologists and more Explores the relationships between seabed geomorphology oceanography and biology Provides global case studies which directly focus on habitats including both biological and physical data Describes ways to detect change in the marine environment change in the condition of benthic habitats a critical aspect for judging the performance of policies and legislation **Water Engineering and Management through Time** Enrique Cabrera,2010-08-06 Water Engineering and Management Learning from History explores the pair technology water use an indivisible pair since the first member of the binomial determines the second which in the light of the knowledge available in the 21st century and with a conception focused on the near future goes beyond the limits set by nature itself T **Interdisciplinary Research in Engineering: Steps towards Breakthrough Innovation for Sustainable Development** Aurel Vlaicu,Stelian Brad,2013-06-27 Selected peer reviewed papers from the Interdisciplinary Research in Engineering Steps towards Breakthrough Innovation for Sustainable Development INTERIN 2013 25 February 1 March 2013 Cluj Napoca Romania **Approaches to Specialised Discourse in Higher Education and Professional Contexts** Alejandro Curado Fuentes,Mercedes Rico García,Patricia Edwards

Rokowski,2009-03-26 Approaches to Specialised Discourse in Higher Education and Professional Contexts brings together a number of studies by various authors in the common field of languages for specific purposes LSP This area faces a major challenging need to work with both specialised content and language a complex combination which can be discouraging to many a language teacher from a traditional philological background In the introduction to this volume Dr Martin Hewings asks how these teachers as mere onlookers on specialist areas in higher education and the professions are successfully to teach students communication skills The answer is most probably contained in no single approach or scope but rather in a multiple probing of methods aimed at the empirical observation and analysis of language use in the specific contexts in which they are housed The studies presented herein illustrate such a multi fold scenario analysing and sharing significant findings on discourse across academic disciplines and professional areas The authors not only evince the importance of the various methodologies adopted but also in their role as teachers and researchers demonstrate the significance of working as integrated members in the fields they teach Clearly reflected in this volume is the natural adaptation of LSP research pushing beyond theory to filter into classroom developments and professional interactions The fact that these papers have been selected from the fourth conference by the European Association of Languages for Specific Purposes AELFE held in Spain October 2005 indicates that the LSP community tends to look into the blend of practice and research as a key exponent for successful learning integration Because the linguist is also the LSP practitioner or vice versa the enquiries that conduct these chapters are commonly addressed either implicitly or openly by students and teachers alike For readers who would like to learn or know more about communicative strategies and methodological approaches in different specialisms this book may be a valuable resource

*Victims of Progress* John H.
