

UBD LESSON PLAN TEMPLATE

Students will design a lesson plan that includes a combination of teaching reading strategies. Also appropriate: vocabulary development, terminology, classroom environment enrichment through texts, teacher text collection, reading circles, etc.

You decide. You may also 'model' a lesson that your cooperating teacher(s) have employed.

Lesson Topic: _____ Classification _____ Grade level: _____ 6 - 8 _____
Length of lesson: _____ 50 min _____

STAGE 1 - DESIRED RESULTS

Content Standard(s):

- The students will use and create dichotomous keys
- The students will recognize how scientific knowledge is subject to change as new evidence becomes available, or as new theories cause scientists to look at old observations differently

Understanding (s)/goals

Students will understand:

- The methods involved in creating a classification system
- The reasons/importance of classification in science as well as in our daily lives

Essential Question(s):

- Why do we classify?
- Is there a "right" way to classify?
- Why is a dog not a fish?

Student objectives (outcomes):

Students will be able to:

- Create a dichotomous key or flow chart using a logical method to classify at least ten individual objects.
- Compare their own classification methods and difficulties to those of professional scientists.

STAGE 2 – ASSESSMENT EVIDENCE

Performance Task(s):

- Students will construct their own dichotomous key or flow chart to classify 20 different household items.

Other Evidence:

- In groups, develop a classification system for shoes
- Groups will present their methods to the class.

STAGE 3 – LEARNING PLAN

"Unique" shoes

Understanding by Design Guide to Advanced Concepts in Creating and Reviewing Units Grant Wiggins,Jay McTighe,2012-03-16 The Understanding by Design Guide to Advanced Concepts in Creating and Reviewing Units offers instructional modules on how to refine units created using Understanding by Design UbD and how to effectively review the units using self assessment and peer review along with observation and supervision The Guide builds upon its companion and predecessor The Understanding by Design Guide to Creating High Quality Units and like the earlier volume it presents the following components for each module

Narrative discussion of key ideas in the module Exercises worksheets and design tips Examples of unit designs Review criteria for self and peer assessment References for further information UbD is based on a backward design approach and is used by thousands of educators to create curriculum units and assessments that focus on developing students understanding of essential ideas and helping students attain important skills The Guide is intended for use by individuals or groups in K-12 education teachers school and district administrators curriculum directors graduate and undergraduate students in curriculum and others who want to further develop their skill in UbD Users can work through the modules in order or pick and choose depending on their interests and needs Additional resources including worksheets examples and FAQs are available as downloadable forms including fillable UbD templates that can be saved electronically making it easy for UbD practitioners to advance their understanding and their ability to create curriculum that leads to deep meaningful learning

Understanding by Design Grant Wiggins, Jay McTighe, 2005-03-15 ASCD Bestseller Wiggins and McTighe provide an expanded array of practical tools and strategies for designing curriculum instruction and assessments that lead students at all grade levels to genuine understanding. How do you know when students understand? Can you design learning experiences that make it much more likely that students understand content and apply it in meaningful ways? Thousands of educators have used the Understanding by Design (UbD) framework to answer these questions and create more rigorous, engaging curriculums. Now this expanded 2nd edition gives you even more tools and strategies for results-oriented teaching. An improved template for creating curriculum units based on the breakthrough backward design method. More specific guidelines on how to frame the big ideas you want students to understand. Better ways to develop the essential questions that form the foundation of high-quality curriculum and assessment. An expanded toolbox of instructional approaches for obtaining the desired results of a lesson. More examples across all grade levels and subjects of how schools and districts have used the UbD framework to maximize student understanding. Educators from kindergarten through college can get everything they need: guidelines, stages, templates, and tips to start designing lessons, units, and courses that lead to improved student performance and a more stimulating experience for students and teachers alike.

Making the Most of Understanding

by Design John L. Brown, 2004-04-15 Thousands of educators worldwide are already using Grant Wiggins and Jay McTighe's Understanding by Design (UbD) as a framework for designing curriculum units, performance assessments, and instruction that lead students to deep understanding of content. This book, based on data gathered from surveys, interviews, and focus group discussions, reflects what educators have learned about effective UbD implementation and explores how schools and districts can leverage UbD principles and strategies to improve student achievement, staff performance, and organizational productivity. Educators who have used the UbD framework for several years in various school settings present advice, strategies, and processes for using Understanding by Design to Design purposeful, coherent curricula. Deliver instruction that promotes understanding for all. Unpack district standards. Expand assessment repertoires. Create meaningful and effective professional development and teacher induction programs. Sustain a successful process of continuous improvement and strategic planning. Each chapter concludes with organization-focused assessment questionnaires and related resources that can help you as an individual or as a member of a study group or action research team develop a clear strategic sense of how to make the most of Understanding by Design as a catalyst for real learning, increased student achievement, and school and district renewal. JPRS Report, 1991 Preparing Effective Lessons Andrea L. Ray, 2020-02-28

Forget waiting for the district, state or national test to find out how your instruction impacts student outcomes. If you are ready to rethink how you plan lessons and measure student learning outcomes, this planning guide is for you. Did you ever wonder why the process of linking your lesson plans to student outcomes remains shrouded in mystery? This eye-opening planning guide rips off that shroud and exposes the links for all to see. There is a way for you to link instruction to student outcomes and this planning guide provides access to that process. The easy-to-follow guide leads you through the steps for developing lesson plans that link instruction with student learning. This step-by-step guide exposes seven diverse types of links from pre-planning through summative assessment. They are: Reflections on how to develop, change or improve your practice; Pre-planning links that connect prior student achievement standards and objectives; Lesson plan links that connect three types of assessments and learning activities; Grade book links that connect assessment and activities to objectives and standards; Professional learning extensions that expand your professional knowledge; An On-Going support plan that provides a Plan B option; and A self-assessment that links instruction with student outcomes.
