

LA MONDIALISATION EST-ELLE UN FACTEUR DE PAIX ?

Sujet très fubé ^^

Sujet à la fois géoéconomique et géopolitique transversal sur les deux années.

Mondialisation : définition comme dans les autres DM

La paix : liée à la mise en relation généralisée des territoires. Etat de concorde, d'entente, de félicité. Coopération, entente. Complémentarité. Paix = notion géopolitique ≠ développement, prospérité, bien-être, effet positif (notion économique et sociale)

≠ rivalité, concurrence, opposition. Intérêts divergents, conflits, guerres. Conflits sociaux -> crises politiques. Conflits (notion géopolitique) ≠ crises (notion géoéconomique)

Le monde : planète. Sujet pas facile car il demande d'avoir une argumentation à toutes les échelles et dans tous les types de territoires dans le monde :

- Etats et populations intégrées à la mondialisation
- Etats et populations économiques en marge

Organisation géoéconomiques du monde :

- domination Nord/Sud
- Emergence de nouveaux pôles de puissances -> monde multipolaire

Attention à une vision très archaïque où les rapports de force économiques sont limités au rapport Nord-Sud, voire à quelques tiers-mondismes obsolètes.

Réflexion à toutes les échelles.

Sujet géoéconomique et géopolitique :

- la mondialisation : processus géoéconomique
- la paix : un état politique ou géopolitique
- ➔ ne pas étudier les conflits sans relation avec la mondialisation.
- ➔ ne pas étudier la mondialisation sans ses implications géopolitiques de paix ou de conflits.
- « la mondialisation est-elle un facteur de paix ? »
- suppose analyse des impacts géopolitiques d'un processus géoéconomique
- Qu'est-ce qui dans la mondialisation favorise la paix ou provoque les conflits ?

- La paix par la mondialisation
- Coopération, entente interdépendance des Etats
- Développement et bien-être des populations
- Les conflits à cause de la mondialisation
- Rivalité et concurrence
- Accroissement des inégalités, révoltes sociales débouchant sur des conflits politiques

La Mondialisation Est-elle Un Facteur De Paix

Yann Algan, Pierre Cahuc

La Mondialisation Est-elle Un Facteur De Paix:

La mondialisation est-elle un facteur de paix ? Philippe Martin, Thierry Mayer, Mathias Thoenig, 2006 Le commerce international n'est pas toujours un facteur de pacification des relations entre les pays. Certes si deux pays commercent davantage de manière bilatérale ils sont plus fortement incités à résoudre pacifiquement le conflit qui peut les opposer. Mais si ils commercent davantage avec le reste du monde la diversification des partenaires agit comme une assurance contre les coûts économiques d'un conflit militaire et elle peut en augmenter la probabilité. La mondialisation en affaiblissant les dépendances économiques locales a donc une influence ambiguë sur la paix. Etudiant l'équilibre entre commerce régional et multilatéral et le rôle des accords commerciaux les auteurs montrent comment l'architecture des échanges internationaux si elle est structurée de manière cohérente permet de réduire la conflictualité. Cette réflexion est illustrée par quelques cas concrets : Turquie, Grèce et Inde, Pakistan.

La Mondialisation Est-elle Un Facteur de Paix ? Philippe Martin, 2006 *Peace Education, Religious Discourse, and Scientific Enquiry* Jarosław Michalski, Monika Wolińska, 2024-12-03 Empowering educators and policymakers to effect positive change in their communities this book critically examines how sustained dialogue and cooperation between scientific inquiry and religious discourse can contribute to the fostering of successful peace education initiatives. Providing an overview of the historical and cultural context of peace education in Eastern Europe the chapters look initially at the theoretical foundations emphasising the need for empathy, internal peace and traditional values. Featuring contributions from the United States, Germany, Italy, Slovakia, Turkey and Poland subsequent sections outline ethical, moral and religious dimensions to inform effective peace education strategies along with a discussion on how they can be harmonised with secular approaches to provide a holistic framework for peace education. Case studies and practical applications follow ranging from Maria Montessori's educational approach to the role of social media and sustainability in peace education providing readers with a comprehensive understanding of how different perspectives can inform effective peace education strategies. With implications and take aways for educators and researchers looking to foster a culture of peace and non violence this book will be of interest to scholars, policymakers, postgraduate students and curriculum designers in the fields of peace education, values education, conflict resolution and social cohesion more broadly. Those working in peacebuilding organisations and NGOs more widely may also benefit from the chapters. 27 Questions d'économie contemporaine Philippe Askenazy, Daniel Cohen, 2009-01-14 L'économie matérielle vivante si elle en est serait-elle réservée aux spécialistes et condamnée à l'hermétique ? Non répondent les économistes parmi les plus minents réunis autour de Philippe Askenazy et Daniel Cohen dont les Trois Leçons sur la société post industrielle ont connu un grand succès. Ils le montrent et le démontrent dans ce livre singulier qui procède tout autant d'un dictionnaire du quotidien d'un trait pratique que d'un manuel intelligent d'économie. Des limites du système de retraite français aux liens entre

guerre et commerce dans les relations internationales en passant par la rente nucléaire les faiblesses de la grande distribution ou les crises financières les auteurs analysent les fils qui relient la vie économique l'ensemble de la société Les thèmes abordés dans cette somme plongent le lecteur dans un univers enfin plus intelligible loin des débats idéologiques ou des démonstrations abstraites
