## **La Philosophie Positive:**

La Philosophie Positive: Auguste Comte Et M. Pierre Laffitte, Jean François Eugène ROBINET, Pierre Laffitte, 1885      **La Philosophie Positive D'Auguste Comte... - Primary Source Edition** Harriet Martineau, 2014-01-08 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book The below data was compiled from various identification fields in the bibliographic record of this title This data is provided as an additional tool in helping to ensure edition identification La Philosophie Positive D Auguste Comte Harriet Martineau Luis Bahl 1895 Philosophy Movements Rationalism Philosophy General Philosophy Movements Rationalism Positivisme      *Paroles de Philosophie Positive (1863)* Emile Littre, 2009-04 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work      **La philosophie positive** Auguste Comte, 1911      **La Philosophie positive** , 1870

**De la Philosophie Positive** , 1845      **La Philosophie positive** , 1882      **The Cult of the Modern** Gavin Murray-Miller, 2017 The Cult of the Modern focuses on nineteenth century France and Algeria and examines the role that ideas of modernity and modernization played in both national and colonial programs during the years of the Second Empire and the early Third Republic Gavin Murray Miller rethinks the subject by examining the idiomatic use of modernity in French cultural and political discourse The Cult of the Modern argues that the modern French republic is a product of nineteenth century colonialism rather than a creation of the Enlightenment or the French Revolution This analysis contests the predominant Parisian and metropolitan contexts that have traditionally framed French modernity studies noting the important role that colonial Algeria and the administration of Muslim subjects played in shaping understandings of modern identity and governance among nineteenth century politicians and intellectuals In synthesizing the narratives of continental France and colonial North Africa Murray Miller proposes a new framework for nineteenth century French political and cultural history bringing into sharp relief the diverse ways in which the French nation was imagined and represented throughout the country s turbulent postrevolutionary history as well as the implications for prevailing understandings of France today      The Oxford Handbook of Modern French Philosophy , 2024-06-25 French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions

themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century

The Legacy of Positivism Michael Singer, 2005-09-30 This book gives a unique historical and interpretive analysis of a widely pervasive mode of thought that it describes as the legacy of positivism Viewing Auguste Comte as a pivotal figure it charts the historical origins of his positivism and follows its later development through John Stuart Mill and mile Littr It shows how epistemological shifts in positivism influenced parallel developments in the human and legal sciences and thereby treats legal positivism and positivism as it is understood in the human sciences within a common framework

**Intellectual Founders of the Republic** Sudhir Hazareesingh, 2001-11 This innovative study of French political culture re examines the origins of modern republicanism through the lives and political thought of five nineteenth century intellectuals Jules Barni Charles Dupont White Emile Littr Eug ne Pelletan and Etienne Vacherot By their writings and their political practices at the local national international levels these thinkers made major contributions to the founding of the new republican order in France Drawing on arange of archival and published sources the book sheds new light on classical republican thinking on such key issues as the interpretation of the 1789 Revolution the definition of citizenship the meaning of patriotism the relationship between central government and local democracy the value of individual liberty and the place of education and religion in publica and private life These five studies also break new ground in the conceptualization of nineteenth century French intellectual history The writings of these thinkers demonstrate the ideological pluralism and diversity of moderate French republican thought during this period Positivism appears as an important and influential doctrine but its hegemonic aspirations were successfully resisted by the abiding inclences of Saint Simonism socialism doctrinaire liberalism and neo Kantianism It emerges that the ideological potency of republican doctrine lay in its complexity and sophistication as reflected in its capacity to effect a synthesis among these different approaches Through its analysis of the writings and political practices of these five thinkers Intellectual Founders of the Republic offers critical insights into the history of political thought as well as modern French republicanism It underlines both the significance of contextuality in the interpretation of political discourse and the continuing relevance of classical republicanism in making sense of contemporary moral and political dilemmas
