La Philosophie Transcendantale De Gilles Deleuze:

La philosophie transcendantale de Gilles Deleuze Stephane Lleres, 2011-10-01 Parce qu'avec Nietzsche Deleuze met en question l'idée même de vérité il se voit accusé de relativisme. Se réclamant de Spinoza on le soupçonne d'un retour dogmatique à la métaphysique et l'ontologie Deleuze apparaît alors comme une sorte de penseur pré-critique perdu au milieu du XX^e siècle. L'ambition de ce livre est de montrer que le projet le plus général de la philosophie de Deleuze est celui de son achèvement mais en restant sur le terrain transcendantal. *Singularity and Transnational Poetics* Birgit Mara

Kaiser, 2014-12-05 Over the past decade singularity has been a prominent term in a broad range of fields ranging from philosophy to literary and cultural studies to science and technology studies. This volume intervenes in this broad discussion of singularity and its various implications proposing to explore the term for its specific potential in the study of literature. *Singularity and Transnational Poetics* brings together scholars working in the fields of literary and cultural studies, translation studies and transnational literatures. The volume's central concern is to explore singularity as a conceptual tool for the comparative study of contemporary literatures beyond national frameworks and by implication as a tool to analyze human existence. Contributors explore how singularity might move our conceptions of cultural identity from prevailing frameworks of self/other toward the premises of being as singular/plural. Through a close reading of transnational literatures from Ireland, Germany, the Netherlands, France and South Africa, this collection offers a new approach to reading literature that will challenge a reader's established notions of identity, individuality, communicability and social cohesion. **Deleuze's**

Philosophical Lineage II Jon Roffe, Graham Jones, 2019-04-17 From Lucretius to Schelling to Foucault, this book looks at 16 philosophers, writers and artists whose work influenced the philosophy of Gilles Deleuze. Each chapter introduces the thinker in question, explains the context in which Deleuze draws their work and discusses how it contributed to the development of Deleuze's own ideas. *Deleuze's Philosophical Lineage II* complements the original *Deleuze's Philosophical Lineage* volume by adding new voices to the discussion, looking at thinkers not covered by the first volume, introducing well-known French philosophers to English language Deleuze studies and reflecting the latest Deleuze scholarship. Ce livre se concentre sur la problématique de la méthode dans l'herméneutique ricœurienne des symboles et du texte C'est dans cette problématique que résident l'originalité de l'herméneutique ricœurienne et sa contribution à la constitution d'une herméneutique générale Cette contribution est liée à sa tentative d'établir une dialectique fine entre la compréhension et l'explication entre l'herméneutique de la foi et celle du soupçon entre la téléologie et l'archéologie Paul Ricoeur. La problématique de la méthode et le déplacement herméneutique du texte à l'action et à la traduction Housamedden Darwish, 2012-04-01
