Joycean Elements in F. Scott Fitzgerald's The Great Gatsby Barney Tanner, Bernard R. Tanner, 2007. This research monograph argues that Scott Fitzgerald consciously used a variety of Joycean devices in *THE GREAT GATSBY* and these devices were the result of close readings of Joyce's *DUBLINERS* and *ULYSSES*. The monograph breaks new ground in Fitzgerald scholarship and has implications for Joyceans as well. The author's research was first begun under the mentorship of Professor Wallace Stegner and has lasted over 35 years. Tanner also benefited from a correspondence with Edmund Wilson prior to Wilson's death. This study sets out to prove that Fitzgerald modeled numerous elements of *GATSBY* on elements found in Joyce's *ULYSSES*. FSF imitated Joyce's use of the first letter in each of the parts of *ULYSSES*. There, Joyce alluded to two matters: 1) the first names of his characters and 2) the logical steps of a syllogism. Fitzgerald enriched this device. He developed three parts in his novel, 3-3-3, and used the first and last letters of each of his 9 chapters for two purposes: to repay in a bold and playful way his debt to Joyce and to honor Ernest Renan, famed for his *LIFE OF JESUS*, and a source of burlesque techniques employed in *Gatsby*. This is just one example of a number of research issues raised by Tanner, a number new to Fitzgerald scholarship. Other chapters deal with FSF's imitation of Joyce's *Araby* in Fitzgerald's story *Absolution*, a precursor to *Gatsby*; sources for Christian allusions and direct allusions to *ULYSSES*; the shadowing and doubling of characters; patterns of imagery and numeracy in topics and theme. The work contains two appendices, including a significant comparison of Trimalchio and *THE GREAT GATSBY*.

The Digital Future of English

Simone Murray, 2025-07-18. More than any other academic discipline, literary studies is the creation of print culture. How then

can it thrive in the digital era Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies' object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born-digital texts and do-it-yourself/DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book-loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial-age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology's impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies' digital future
