Moy,1993 Since the beginning of the Western tradition in drama dominant cultures have theatrically represented marginal or foreign racial groups as other different from normal people not completely human uncivilized quaint exotic comic Playwrights and audiences alike have been fascinated with racial difference and this fascination has depended upon a process of fetishization By the time Asians appeared in the United States the framework for their constructed Lotus Blossom and Charlie Chan stereotypes had preceded them In Marginal Sights James Moy dismantles these stereotypes in an unrelenting attack on Anglo American institutions of racial representation Reading the Chinese stereotype through several media Moy notes the consistency of Anglo America s construction of what he terms Chineseness He rejects the dominant cultural assertion that stereotypes contain a germ of truth arguing instead that this so called germ of truth is itself a construction that serves the evolving social and material concerns of an often sinophobic white America Through time the stereotypes have taken on a life of their own and those who sought to overturn them have often failed thus seemingly validating them Moy on the other hand spotlights the constructed Orientals so brilliantly that the real Asian Americans behind them can become visible at last Consisting of ten readings of Chineseness in America this sophisticated text reveals the source of representational racial oppression in America Moy examines diverse sites of representation from museum displays cartoons and plays to early photographs films circus acts performance art and pornography His persuasive assault on the responsible institutions is uncompromising However with surprising insouciance Moy juxtaposes wit with the often grim details of America s representational legacy While Marginal Sights focuses on Chineseness in America Moy makes explicit its applicability to all institutionally managed representations racial and otherwise Anyone interested in Anglo American and Asian American studies cultural and film studies theatre history communication and psychology will need to read this book    **Moon Northern California** Elizabeth Linhart Veneman,Christopher Arns,2016-02-02 Covers the best that Northern California has to offer from day hikes in awe inspiring Yosemite Valley to rest and relaxation at the spas and vineyards of Wine Country To help travelers plan their trip Veneman also offers a number of unique itinerary ideas such as as Winter Wonderland Culinary Culture and Driving the Coast a 10 day tour down Northern California s winding scenic coastline With expert advice on finding the tastiest food in the Bay Area exploring the Big Sur coast and getting to Gold Country ghost towns and now with expanded coverage of the many outdoor recreation opportunities available in the region
