Lizard

Lizards are interesting reptiles that live in warm places like deserts, forests, and gardens. They often hide in rocks or under leaves. Most lizards eat insects, plants, and sometimes small animals. They have scaly skin, long tails, and many can change color to blend in with their surroundings. Some lizards can even run fast or climb trees! Lizards are amazing creatures that help control insect populations.

Fun fact

Some lizards can detach their tails to escape predators and later regenerate them.
