Best Strategies For New Book Publishing:

Udemy Tips Dr. Timothy Zahar, 2022-01-01 INTRODUCTION Together we are going through the most difficult time in decades when the Covid 19 pandemic rages everywhere The economy was stagnant and had to turn around to adapt to the new situation Along with that the object most affected is the employees those who work for the bosses A lot of people have been unemployed and laid off And must live on government subsidies However we all know that this situation cannot last forever Many people have gone to find new jobs even doing jobs completely different from their previous jobs This is a big obstacle directly affecting the income of workers When you are not proficient the boss will not be able to pay you a high salary However also thanks to the development of online education We have the opportunity to learn special knowledge helping us to increase our income immediately from the most successful people around the world I am talking about online educational websites for example <https://www.udemy.com> When the pandemic happened my work also faced many difficulties My source of income salary was also severely affected up to an 80% reduction in income During that difficult time I also struggled to find ways to try to bring my income back to the way it was before the Covid 19 epidemic But really the Covid 19 pandemic has turned everything upside down Through many years of experience in my life I understand that the previous understanding will no longer be relevant to the new situation And I need to learn new skills This skill must help me make money immediately And I had to find the best person who was making a lot of money on that skill I don't know where to look because right outside my door is a society that is being isolated isolated at home As a habit I go to Google and search for courses and skills that I think will help me make money right away And then slowly step by step God led me through each keyword keywords I discovered Udemy <https://www.udemy.com> Where I can learn a lot of great things from great teachers really doing what they teach and getting great results at amazingly cheap tuition fees average around 10 course Of course things weren't great from the start Because my English listening ability is very limited I can only hear 10-15% of the content shared by the lecturer I turned on Udemy's auto subtitles tried to follow along but the speed was still very fast and couldn't keep up In this era there must be a way I can't let my limited English ability stop me from moving forward I told myself And I managed to find a way to help me translate faster We all understand that a foreign language specifically English is very useful for work and life And mastering it will help us open up the sky of new opportunities However not everyone has the determination to become fluent in English And I am one of them So in this little book I'm going to show you a tip so you can learn as quickly and as effectively as possible from the amazing things that Udemy teachers teach Whether you are good at English or don't know a word of English No matter what your native language is French Spanish Chinese Japanese as long as you know your mother tongue you can use the way that I will guide to learn new skills And change your financial results Because this small book is written to help everyone from all countries around the world no matter what language you speak Therefore I will try to use as few words as possible Instead it will be specific screenshots so that you can capture my ideas

and follow through and get immediate results Whatever your native language is again Please follow my instructions step by step Dr Timothy Zahar **Strategy and Tactics of World Communism** United States.
