*Notes:

- Level of severity is determined by both impairment and risk. Assess impairment domain by caregiver's recall of previous 2–4 wk. Assign severity to the most severe category in which any feature occurs.
- Frequency and severity of exacerbations may fluctuate over time for patients in any severity category. Currently there are inadequate data to correspond frequencies of exacerbations with different levels of asthma severity. In general, more frequent and severe exacerbations (e.g. requiring urgent, unscheduled care, hospitalization, or ICU admission) indicate greater underlying disease severity. For treatment purposes, patients with ≥2 exacerbations described may be considered the same as patients who have persistent asthma, even in the absence of impairment levels consistent with persistent asthma.

Department of Heal Human Services,2014-12-23 The Expert Panel Report 3 EPR 3 Full Report 2007 Guidelines for the Diagnosis and Management of Asthma was developed by an expert panel commissioned by the National Asthma Education and Prevention Program NAEPP Coordinating Committee CC coordinated by the National Heart Lung and Blood Institute NHLBI of the National Institutes of Health Using the 1997 EPR 2 guidelines and the 2002 update on selected topics as the framework the expert panel organized the literature review and updated recommendations for managing asthma long term and for managing exacerbations around four essential components of asthma care namely assessment and monitoring patient education control of factors contributing to asthma severity and pharmacologic treatment Subtopics were developed for each of these four broad categories *Guidelines for the Diagnosis and Management of Asthma* U. S. Department of Health and Human Services,National Institutes of Health,National Heart Lung Blood Institute, A,2012-06-24 The National Institutes of Health Publication 07 4051 Guidelines for the Diagnosis and Management of Asthma The EPR 3 Summary Report 2007 provides key information from the full report on the diagnosis and management of asthma Summary information is provided on measures of assessment and monitoring education for a partnership in asthma care control of environmental factors and comorbid conditions that affect asthma and medications Key tables and figures from the full report are included for easy reference Asthma is a chronic inflammatory disease of the airways In the United States asthma affects more than 22 million persons It is one of the most common chronic diseases of childhood affecting more than 6 million children current asthma prevalence National Health Interview Survey NHIS National Center for Health Statistics Centers for Disease Control and Prevention 2005 NHIS 2005 There have been important gains since the release of the first National Asthma Education and Prevention Program NAEPP clinical practice guidelines in 1991 For example the number of deaths due to asthma has declined even in the face of an increasing prevalence of the disease NHIS 2005 fewer patients who have asthma report limitations to activities and an increasing proportion of people who have asthma receive formal patient education Department of Health and Human Services Healthy People 2010 midcourse review Hospitalization rates have remained relatively stable over the last decade with lower rates in some age groups but higher rates among young children 0 4 years of age There is some indication that improved recognition of asthma among young children contributes to these rates However the burden of avoidable hospitalizations remains Collectively people who have asthma have more than 497 000 hospitalizations annually NHIS 2005 Furthermore ethnic and racial disparities in asthma burden persist with significant impact on African American and Puerto Rican populations The challenge remains to help all people who have asthma particularly those at high risk receive quality asthma care Advances in science have led to an

increased understanding of asthma and its mechanisms as well as improved treatment approaches To help health care professionals bridge the gap between current knowledge and practice the NAEPP of the National Heart Lung and Blood Institute NHLBI has previously convened three Expert Panels to prepare guidelines for the diagnosis and management of asthma The NAEPP Coordinating Committee CC under the leadership of Claude Lenfant M D Director of the NHLBI convened the first Expert Panel in 1989 The charge to that Panel was to develop a report that would provide a general approach to diagnosing and managing asthma based on current science Published in 1991 the Expert Panel Report Guidelines for the Diagnosis and Management of Asthma EPR 1991 organized the recommendations for the treatment of asthma around four components of effective asthma management Use of objective measures of lung function to assess the severity of asthma and to monitor the course of therapy Environmental control measures to avoid or eliminate factors that precipitate asthma symptoms or exacerbations Patient education that fosters a partnership among the patient his or her family and clinicians Comprehensive pharmacologic therapy for long term management designed to reverse and prevent the airway inflammation characteristic of asthma as well as pharmacologic therapy to manage asthma exacerbations The NAEPP recognizes that the value of clinical practice guidelines lies in their presentation of the best and most current evidence available This report presents recommendations for the diagnosis and management of asthma that will help clinicians and patients make appropriate decisions about asthma care **Expert Panel report 3** National Asthma Education and Prevention Program (National Heart, Lung, and Blood Institute). Nursing Geraldine M. Collins-Bride, JoAnne M. Saxe, Karen G. Duderstadt, Rebekah Kaplan, 2016-03-16 Clinical Guidelines for Advanced Practice Nursing An Interdisciplinary Approach Third Edition is an accessible and practical reference designed to help nurses and students with daily clinical decision making. Written in collaboration with certified nurse midwives, clinical nurse specialists, nurse practitioners, nutritionists, pharmacists, and physicians, it fosters a team approach to health care. Divided into four areas: Pediatrics, Gynecology, Obstetrics, and Adult General Medicine, and following a lifespan approach, it utilizes the S O A P Subjective Objective Assessment Plan format. Additionally, the authors explore complex chronic disease management, health promotion across the lifespan, and professional and legal issues such as reimbursement, billing, and the legal scope of practice. The Third Edition has a keen focus on gerontology to accommodate the AGNP specialty and to better assist the student or clinician in caring for the aging population. The authors follow the across the life span approach and focus on common complete disorders. Certain chapters have been revised and new chapters have been added, which include: Health Maintenance for Older Adults, Frailty, Common Gerontology Syndromes, Cancer Survivorship, Lipid Disorders, Acne, pediatrics section. Please note that the 2016 CDC Guidelines for prescribing opioids for chronic pain in the United States were not yet available at the time the authors were updating the Third Edition. See the Instructor Resources tab to read a note from the authors about their recommendations for resources around these guidelines.
