

# Louisiana Anti-Abortion Center Funding

When someone is making a decision about continuing or ending a pregnancy, they should be able to get accurate information about all their options so they can decide what is best for themselves. **Anti-abortion centers (AACs) do not support pregnant people and families. Instead, they serve as a barrier to parental support and legitimate health care, including abortion access.**

**Louisiana** is one of many states that funds AACs with taxpayer dollars. Equity Forward estimates that since 1995, states have allocated a combined total of **more than \$1.13 billion in tax dollars to AACs** through state-run Alternative to Abortion programs or via other funding streams. In several places, millions of federal Temporary Assistance for Needy Families (TANF) dollars, which are meant to support families working to make ends meet, instead get diverted to AACs. **Louisiana** has historically used TANF block grants to fund AACs.

**Period of Funding:** **FY 2003 - Present**

**Current Funding:** **\$4,000,000**

**Estimated Funding Over Time:** **\$33,783,512**

## Funding Propaganda:

### Anti-abortion centers use tax dollars for marketing instead of support.

States are allocating funds towards anti-abortion messaging instead of directing resources to address the various crises affecting our communities.

For its 11/15/20-6/30/21 budget period, Louisiana AAC contractor Caring to Love Ministries spent \$17,534.63 on TV and radio ads, maintenance for anti-abortion websites (including the propaganda website “Know For Sure”), and search engine optimization (SEO). SEO serves people ads that look like they are for legitimate providers but are instead AACs.

[Public Records, obtained by Equity Forward, 4/4/23]

## Supporting Deceptive Practices:

### Anti-abortion centers exist in order to delay or deter pregnant people from getting abortion care.

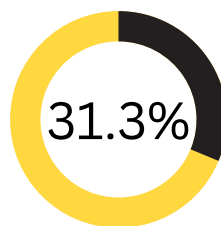

AACs are not a replacement for health care services, nor are they able to support pregnant people or parents. There are 36 AACs in Louisiana; meanwhile, there is a total abortion ban in the state.

[AbortionFinder.org, accessed 2/25/25]

## Anti-Abortion Centers Do Not Address The Maternal Care Crisis:

### Anti-abortion centers don't contribute to ameliorating health inequities.

Nationwide, Louisiana has the fifth highest maternal mortality rate and fifth highest infant mortality rate.

**Of all Louisiana counties, 31.25% are considered maternity care deserts.**

[Kaiser Family Foundation, accessed 2/21/25]  
[Centers for Disease Control and Prevention, accessed 2/21/25]  
[Deloitte, accessed 2/21/25]

## Take Action — End Tax Dollars From Flowing To Anti-Abortion Centers

Funding AACs siphons money away from low-income individuals and those in need of quality health care, and instead places it in the hands of organizations that spread biased, false, and harmful information — and have been left unchecked far too long.

### Reallocation:

**Tax dollars should go to programs that provide the support parents and pregnant people need.**

Instead of funneling money to programs that spend more on propaganda than services, states can fund people getting health care, accurate information, and access to all of their options, including abortion, adoption, and meaningful support for parents to raise children once they are born.

### Regulation:

**States must engage in greater scrutiny, investigation, and regulation of AACs**, especially those that rely on taxpayer dollars. AACs should not be allowed to engage in unscrupulous tactics and should be required to be transparent about their use of funds and operations.

### Louisiana Organizations To Support

Take action by supporting these organizations that ensure comprehensive reproductive health care access or work to hold anti-abortion centers accountable.
