

# West Virginia Anti-Abortion Center Funding

EQUITY  
FORWARD

When someone is making a decision about continuing or ending a pregnancy, they should be able to get accurate information about all their options so they can decide what is best for themselves. **Anti-abortion centers (AACs) do not support pregnant people and families. Instead, they serve as a barrier to parental support and legitimate health care, including abortion access.**

**West Virginia** is one of many states that funds AACs with taxpayer dollars. Equity Forward estimates that since 1995, states have allocated a combined total of **more than \$1.13 billion in tax dollars to AACs** through state-run Alternative to Abortion programs or via other funding streams. In several places, millions of federal Temporary Assistance for Needy Families (TANF) dollars, which are meant to support families working to make ends meet, instead get diverted to AACs.

**Period of Funding:** **FY 2024 - Present**

**Current Funding:** **\$3,000,000**

**Estimated Funding Over Time:** **\$4,000,000**

## Anti-Abortion Centers Do Not Address The Maternal Care Crisis:

**Anti-abortion centers don't contribute to ameliorating health inequities.**

States are investing in anti-abortion propaganda when money could be going to programs that address the multiple crises in our communities.

Nationwide, West Virginia has the 19th-highest maternal mortality rate and the sixth-highest infant mortality rate.

**47.3% of West Virginia counties are maternity care deserts – higher than the national rate of 35.57% of counties.**

[Deloitte, accessed 2/3/25]

## Supporting Deceptive Practices:

**Anti-abortion centers exist in order to delay or deter pregnant people from getting abortion care.**

While West Virginia has a total abortion ban, there are 17 AACs in the state. In an attempt to attract people seeking abortion, many AACs have deceptive names for their centers, intentionally misleading people to believe they will be provided information on all reproductive health options.

### Woman's Choice

504 Washington St W  
Charleston, WV 25302

### Women's Care Center

3007 Dudley Ave  
Parkersburg, WV 26104

Materials from Woman's Choice Pregnancy Resource Center of Charleston peddles medical disinformation about abortion including advertising "abortion pill reversal", a dangerous and medically unproven procedure.

### Abortion Pill Reversal

Many women later regret taking the abortion pill. There is hope of reversing the effects and thus protecting the health of the mother and the life of the baby. (19)

## Take Action — End Tax Dollars From Flowing to Anti-Abortion Centers

Funding AACs siphons money away from low-income individuals and those in need of quality health care, and instead places it in the hands of organizations that spread biased, false, and harmful information — and have been left unchecked far too long.

### Reallocation:

**Tax dollars should go to programs that provide the support parents and pregnant people need.**

Instead of funneling money to programs that spend more on propaganda than services, states can fund people getting health care, accurate information, and access to all of their options, including abortion, adoption, and meaningful support for parents to raise children once they are born.

### Regulation:

**States must engage in greater scrutiny, investigation, and regulation of AACs**, especially those that rely on taxpayer dollars. AACs should not be allowed to engage in unscrupulous tactics and should be required to be transparent about their use of funds and operations.

### West Virginia Organizations To Support

Take action by supporting these organizations that ensure comprehensive reproductive health care access or work to hold anti-abortion centers accountable.
