

# Secretary Azar, until you get rid of Scott Lloyd, you're stuck with all his **BAGGAGE.**

Scott Lloyd is using his position running HHS's Office of Refugee Resettlement to promote a personal, ideological agenda. He's violating young women's privacy, right to medical care, and even their safety. He has to go.

#### As ORR Director, Scott Lloyd has:<sup>1</sup>

- Requested and received a weekly spreadsheet about every pregnant woman in ORR custody to track their pregnancies and private medical decisions
- Denied at least seven immigrant women's requests for abortion – even when the pregnancy resulted from rape
- Defied a court's decision by informing a young woman's abusive parents about her decision to have an abortion
- Attempted to coerce multiple pregnant women in ORR custody to not have abortions
- Ordered pregnant women in the agency's custody to undergo "life-affirming options counseling"

**HHS Secretary Alex Azar:  
Time to send Scott Lloyd  
— and all his baggage — packing.**
